

# Voyageur Tripping 2022: BC Adventures, the Missinaibi River, the Coulonge River and more...

Kilcoo will be offering two different special trips for the Voyageur Section in 2022. We look forward to returning to British Columbia for an adventure tourism type trip or a more traditional, mountaineering style hiking trip.

The Coastal Mountain Range and the Vancouver Island Mountain Range both offer incredible vistas, rugged terrain and a unique western Canadian experience.

Following the success of the Missinaibi River and Coulonge River trips of 2021, we are excited to return to white water canoeing in 2022. The river systems of Ontario and Quebec both offer incredible tripping experiences, with beautiful waterways to paddle down and picturesque campsites to enjoy.

We will still run the "regular" one week canoe trips for the rest of the Voyageur section.

The Nahanni River Experience is an option for 15 and 16 year old campers who want to spend 3 1/2 weeks in the North West Territories on a once in lifetime wilderness adventure. Please see the flyer on [kilcoo.com](http://kilcoo.com) Please contact Lub to discuss options for you and your cabin mates through
